- Identity : Red Dragon Fruit
- Name : *Selenicereus costaricensis*
- Variety : Super Red
- Packaging Detail : 6-8 Pcs/3 kg plain carton box
- Overview

“Red Dragon Fruit is a tropical fruit native to Central and South America and is now widely cultivated in Southeast Asia. It has bright red skin with green scales and deep red flesh containing small edible black seeds. It is known for its sweet taste, refreshing texture, and high antioxidant and vitamin C content.”

Seasonality

- Identity : Yellow Dragon Fruit
- Name : *Selenicereus megalanthus*
- Variety : Yellow Dragon Fruit
- Packaging Detail : 6-8 Pcs/3 kg plain carton box
- Overview

“Yellow Dragon Fruit is a tropical fruit with bright yellow skin and green-tipped scales. It has white, juicy flesh containing small edible black seeds and is known for its sweet flavor, refreshing texture, and delicate floral aroma.”

Seasonality

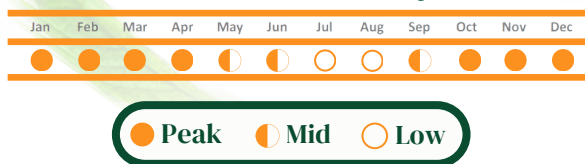

- Identity : Rose Apple
- Name : *Syzygium jambos*
- Variety : Citra
- Packaging Detail : 4-6 Pcs/1 kg plain carton box
- Overview

“Rose Apple is a tropical fruit native to Southeast Asia. It has smooth, glossy skin that ranges from green to deep red, depending on the variety. The flesh is crisp, juicy, and mildly sweet with a delicate floral aroma, making it a refreshing fruit rich in vitamin C and dietary fiber.”

Seasonality

- **Identity** : Kaffir Lime
- **Name** : *Citrus hystrix*
- **Variety** : Jeruk Purut
- **Packaging Detail** : 200 g/plastic tray inside plan styrofoam box or upon customer request

- **Overview**

“Kaffir Lime is a tropical citrus fruit native to Southeast Asia. It is recognized by its dark green, bumpy skin and highly aromatic leaves. The fruit and leaves are widely used to add a distinctive citrus flavor and fragrance to culinary dishes.”

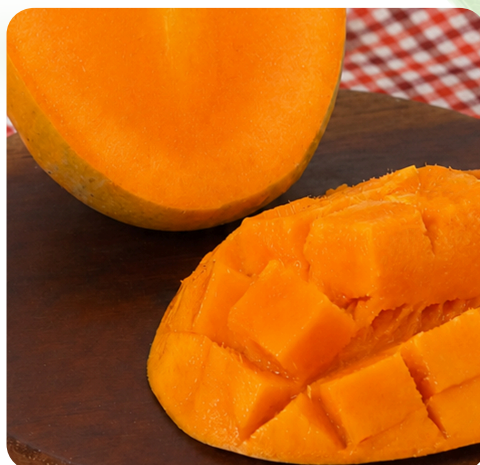

Seasonality

- **Identity** : Papaya
- **Name** : *Carica papaya*
- **Variety** : California
- **Packaging Detail** : Plain carton box 5 kg loose with net foam each pcs, or upon customer request

- **Overview**

“Papaya is a tropical fruit native to Central America and widely cultivated in tropical regions. It has smooth green to yellow skin and bright orange flesh with black edible seeds. Papaya is known for its sweet flavor, soft texture, and rich vitamin C content.”

Seasonality

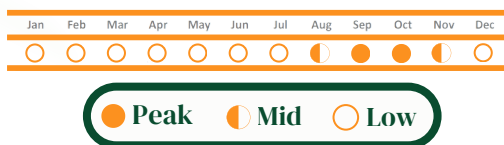

- **Identity** : Alphonso Mango
- **Name** : *Mangifera indica*
- **Variety** : Alphonso
- **Packaging Detail** : 20-24 Pcs/10 kg plain carton box
- **Overview**

“Alphonso Mango is a premium mango variety originating from India. It has golden-yellow skin and smooth, fiberless flesh with a rich, sweet flavor and tropical aroma. It is widely regarded as one of the finest mango varieties in the world.”

Seasonality

- **Identity** : Harum Manis Mango
- **Name** : *Mangifera indica* Linn.
- **Variety** : Arumanis
- **Packaging Detail** : 20-24 Pcs/10 kg plain carton box
- **Overview**

“Harumanis Mango is a premium mango variety originating from Malaysia. It has green skin that remains green even when ripe, with soft, fiberless flesh. Harumanis is valued for its exceptional sweetness, rich aroma, and buttery texture.”
